### Cartooning & Animation

7-12 yrs

Cartooning & Animation is a well established program of AVC. We are offering a high-tech format involving iPads, stands, and iMacs- ground breaking technology which bridges real and digital realms. This program is designed for young animators who are keen to learn Disney's way of hand drawing in sequence following their favorite animated movies. Students are hands on in every aspect to bring their cartoons to life. They will create their own short films and edit their clips with sounds, music, voice over, special effect, etc. Once the project is complete, it will be posted online as well as handed out on USB. The program is designed for everyone who enjoys drawing and technology. No experience is necessary.
